PROFILE

I'm a Secure Mobile App Developer and Application Security Specialist with a deep focus on iOS development. I build mobile applications that not only function beautifully, but are hardened against modern security threats.

PROJECTS

- **PenTest Hub**

PenTest Hub is a lightweight and modular web vulnerability scanner designed for penetration testers, cybersecurity students, and security researchers. It allows you to quickly scan a target website for common web vulnerabilities and generate detailed HTML and PDF reports.

- **iOS Security Scanner**

iOS Security Scanner is an open-source Swift-based CLI tool that analyzes iOS application packages (.app or .ipa) to detect common security misconfigurations before release.

- **Secure Vault**

Secure Vault is an iOS application for secure password management, built using SwiftUI, Core Data, and AES-256 encryption.

SKILLS

- iOS Development (Swift, SwiftUI, UIKit)
- Secure Mobile App Architecture
- Core Data & Firebase Integration
- Encryption (AES-256, CryptoKit)
- Python Scripting & Security Automation

CERTIFICATIONS

GDSC Lead Certificate of Completion (2023–2024)
Issued by Google for Developers for successfully serving as a Google Developer Student Club Lead during the 2023–2024 academic year.

EDUCATION

University of Babylon – Cybersecurity (2022 - 2026)
Currently pursuing a Bachelor's degree in Cybersecurity at the University of Babylon, focusing on network security, ethical hacking, cryptography, and secure software development.

LANGUAGES

- **Arabic** – Native Proficiency
 - **English** – Professional Working Proficiency
-
